

We use only the finest quality potatoes and our fish is sourced only from sustainable resources, wherever possible we try to source our other produce from local suppliers.

Here at Drakes we pride ourselves in our freshly cooked food, so please bear with us during busy times as there may be a slight delay.

Please try our other restaurants in North Yorkshire at

Although Drakes fisheries take great pride in producing only the best quality experience for our customers, there is a small risk that the odd very small stone can be found in our mushy peas as they are harvested.
